PROFILE

I am an open-minded and ambitious Software Engineering student who thrives on new challenges. I approach software development with a highly logical, structured, and systematic mindset. I pride myself on being goal- and detail-oriented, always committed to delivering high-quality solutions.

WORK EXPERIENCE

Bilka	2023- 2024
Service Associate	
• Handled diverse customer inquiries in a fast-paced environment, ensuring a positive brand experience. • Worked effectively within a large team to ensure daily operations and high service standards were met. • Demonstrated reliability and a strong work ethic, balancing work commitments alongside my studies.	

EDUCATION

B.Eng. in Software Engineering	2025 - PRESENT
VIA University College	
Grade: 11.833/12 (ECTS: A)	
Higher General Examination Programme	2022 - 2025
Horsens Gymnasium & HF	
Grade: 9.0/12 (ECTS: B)	

AWARDS & PROJECTS

2nd Place, VIA Hackathon	March 2026
• Developed a prototype for the problem "improve VIA campus" in an intensive 24-hour team sprint. • Successfully pitched the technical solution and concept to a panel of industry experts.
